SOUND AND PROJECTION UPDATE

This week giving toward our goal toward upgrading our sound and video took a significant step forward. We are just a few thousand dollars short of our target. Believing that we will have enough to do what is necessary the Session authorized construction of a new control booth in the balcony which began this week. Complications with the booth have already exceeded its estimated cost.

Every gift counts as the Session considers how much of the overall design we can implement. If you would like more information talk with a Session member or Pastor Scott.
